

LONDON LIVE ENDOSCOPY

UNIVERSITY COLLEGE HOSPITAL

28th - 29th November 2019

It's here again! Join us for the 10th annual London Live Endoscopy course. 2 days of live endoscopy and much more! With an outstanding faculty from the UK and internationally we aim to learn not only "how to do it", but "when to do it". Technology, technique and clinical practice in endoscopy never stands still – and neither do we! We're building on the innovations introduced by LLE, including interactive iPads for all, and using them in fun and creative ways to improve all of our learning. It will be fun, informal, and challenging – come along!

Activities include:

- 3 room simultaneous live endoscopy
- Interactive learning, with iPads for all delegates to review literature, industry information, quizzes, annotate lectures and much more.
- 'Where are we heading?' – Updates on developments in endoscopic practice
- 'Tricks and tips' technical sessions with expert faculty
- 'Experts on the Spot'.
 - Interactive post-endoscopy Q+A of pathology, case video-feedback back, and decision making.
- Hands-on Suite:
 - Half day session with expert faculty providing one-to-one training in EMR, ESD, polypectomy, EUS, ERCP, fistula closure, stenting, cholangioscopy.
